

DAVID ATKINS

AV REQUIREMENTS

COMPUTER, PROJECTOR, AND SCREEN

David's entire presentation is presented from his MacBook using a 16:9 display ratio. Client must provide both an HDMI and 3.5 mm audio connection to connect to David's Macbook. Additionally, the client must provide a wireless clicker to use with David's MacBook. The larger the screen and the higher the quality of the projector, the better.

MICROPHONE AND AUDIO

David requires a lavalier microphone connected to a high-quality audio system. Speakers/audio should be very high-quality and sufficient for the entire audience to hear sound/video clips played directly from David's laptop. Please make sure the sound system is functioning and tested before his arrival.

STAGE ACCOMMODATIONS

David prefers no podium to be on stage. If one must be present, he prefers it to be pushed back so that he may walk in front of it unencumbered.

BEVERAGE

Please have a bottle of water available for David while on stage.

CONFIDENCE MONITOR

David prefers a confidence monitor, if possible.

AV TESTING/SOUNDCHECK

David must have the ability to do an audio/visual test no fewer than 30 minutes before taking the stage. Event staff must be present during audio/visual testing in the event troubleshooting needs to occur.

INTERNET ACCESS

David sometimes uses real time surveys or QR codes during his presentation therefore the audience would require Internet Access.
