ONE DECISION AWAY

## One Decision. One Moment. One Life-Changing Shift.

What if your entire life could change with a single decision?

David Atkins, retired New York State Police Captain, 9/11 first responder, million-dollar entrepreneur, keynote speaker, and man of faith, has lived that truth. Again and again, he has proven that every breakthrough, every new chapter, and every transformation begins the same way: with one decision made in courage and backed by faith.

In The One Decision Away Philosophy, David shares powerful real-life stories from the decisions that shaped his own journey to those that transformed the lives of others. With raw honesty, inspiring testimony, and actionable tools, he will challenge you to confront your fears, overcome your excuses, and unlock the next chapter of your life.

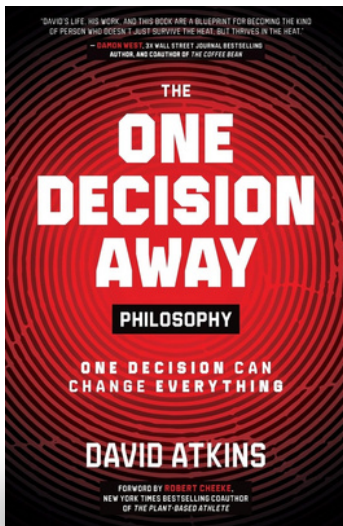

Whether you are stuck in indecision, held back by comparison, or haunted by past regrets, this book is your roadmap to clarity, confidence, and consistent progress. You will learn how to:

- Apply daily decisions that compound into significant life changes
- Overcome fear, procrastination, and limiting beliefs
- Align your actions with purpose, principles, and faith
- Trust the process even when the path is unclear

You do not need to have it all figured out. You just need to decide.

Because the future you are longing for?

It is always one decision away.
